## COUNTY JAIL IS PURCHASED BY CITY OF CANYON

SALE IS MADE WEDNESDAY MORNING BY COUNTY.

Will Consider Erection of New Jail in the Near Future for the County of Randall.

The County Commissioners Court Wednesday morning authorized the sale of the present jail used by the county to the city of Canyon for the consideration of \$1,246.02, the price paid the city for it several years ago.

The city commission presented a request to the county commissioners early this week, asking that the city of Canyon be allowed to again take over the jail, which is built at the rear of the city hall, and which was sold by the city to the county several years ago, and has been under the charge of the county officials.

Judge B. F. Fronabarger stated this morning that the commissioners court would now consider the construction of a new jail for the county. Although the commissioners plan to push the jail project and erect a new jail as soon as possible, Judge Fronabarger said that in all probability no action would be taken before the first of January.

The court adjourned Wednesday subject to call by the action of the highway division engineer. All matters pertaining to the highway running west from Canyon were postponed until such a time when the engineer will appear before the court to discuss the routing of the highway and securing the right of way.

During the session of the court, one railway crossing in the county was ordered closed. This crossing is north of Happy, which angles the tracks of the Santa Fe near the S. M. Mackey farm.

Three official headlight testing stations were recognized by the court this week. These were: Miller-Lybrand Company and Geo. A. Farlow, of Canyon; W. L. Lyons Grocery, 2610 South Tyler, Amarillo. In the past there have been only two testing stations in the county, these being located in Canyon.

## Meeting on Palo Duro Park Held at Memphis Friday

Representatives from many Panhandle towns gathered at Memphis Friday for the purpose of taking more definite action regarding the establishment of the Palo Duro Park. Sam M. Braswell of Amarillo is president of the Palo Duro Association. He reported on the action of the meeting held in Abilene two days previously when representatives from the four park projects came to an understanding as to the method of procedure.

Committees were authorized by the president to start work on the project to be submitted to the coming session of the legislature. Ray V. Davis took a large number of his pictures of the Palo Duro to the meeting. Those attending from Canyon were J. B. Ellison, S. B. Orton, Travis Shaw, Mrs. T. V. Reeves and Mrs. Clyde Warwick.

## Annual Banquet of C. of C. Will Be Held Friday

The annual Chamber of Commerce banquet and election of officers will be held in the basement of the First Methodist Church on Friday night, December 12, according to an announcement made this week by L. N. George, who is conducting a ticket sale for the banquet.

No long, drawn-out, set speeches are to be made at the meeting Friday night, Mr. George states. A few short announcements together with the election of officers will make up the program of the evening.

When Elmer was coach of the Abilene high school, he brought his team here on the way to Amarillo for a work out.

## City Federation Women's Clubs to Spread Christmas Cheer Among the Needy of Canyon and County During the Holidays

The City Federation of Women's Clubs met Wednesday afternoon in the Club Room and plans were made for the "Empty Stocking Crusade," which the club conducts each year for the needy children of the city.

When the fires burn high and the lights are turned low in a majority of the homes in Canyon on Christmas Eve, there may be many little children in some homes with high hopes, but unless Old Santa is given some assistance they may be disappointed. If you know the names of some little boy or girl whom Santa Claus is likely to miss unless he is notified where they live, will you not get in touch with the committee? If you do know of worthy cases you are urged to get in touch with Mrs. C. M. Dowlen, telephone 468W.

The Federation is glad to receive toys and other gifts to assist in their Christmas work.

The people are requested to turn in all names not later than December 19. The reason this date was set was that it will give the committee time to canvass every home and learn the needs of each particular family.

Mrs. W. C. Kunze, chairman of the Community Chest work, asks that anyone having children's overalls that have been discarded to please get in touch with Mrs. Dowlen or Mrs. Kunze as the community chest has more calls than can be filled.

The co-operation of everyone is desired by the Federation in putting over the "Empty Stocking Crusade" with the entire city co-operating many little folks will be made happy on Christmas Eve.

—Publicity Chairman, City Federation.

## Hope to Reach an Agreement on West Highway Saturday

The Commissioners Court spent Tuesday afternoon in discussing the highway west, and finally agreed to set Saturday as the day on which it is hoped that details will be worked out to start action on the right-of-way. District Engineer Bailey was with the court Tuesday to discuss plans. Perry Pierson, attorney for the county, was of the opinion that suit would have to be filed in order to secure a portion of the highway.

A delegation came before the court asking that action be speeded up, in order to furnish labor for local men during the winter months. Judge B. F. Fronabarger stated yesterday that no agreement had been reached as to the right-of-way. The court had before it a proposal from the city of Canyon regarding locating the highway on First Avenue, north of the railway, but this was not accepted for the present as being too indefinite.

The present survey calls for the highway to go along the north boundary line of the city, but obstacles have been met as to the right-of-way.

The gap left in the highway north to Amarillo was not paved last week, as stated by the News, only caliche topping placed there by local labor under the direction of the local maintenance crew of the state highway department. It is stated that this part of the paving will be let with the contract on the highway west. It is also stated that the paving was not done at this time owing to the fact that the location of the new highway west will determine the width of the pavement at this particular place.

Judge Fronabarger states that it is hoped the highway west will be completed in detail at the meeting Saturday, and that the state highway commission will let the contract for the grading and drainage at the January meeting.

## CITY DECORATED AS C. OF C. \$100.00 CONTEST BEGINS

CLOSING DATE FOR ENTRIES ANNOUNCED NEXT WEEK.

Vari-Colored Lights, Decorations, Evergreens, Add to Beauty of the Holiday Season.

The Christmas spirit is blazing forth in Canyon, as business houses and homes are being decorated for the coming holiday season. The entire city will be a mass of vari-colored lights, decorations, evergreen trees and the usual Yuletide array of beautiful attractions within the next few days.

Much interest is already manifest in the second annual Christmas decoration contest now being conducted by the Chamber of Commerce with \$100 in cash prizes awaiting the winners of the contest. President Wes Kleinschmidt, who is personally supervising the contest states that everything is ready for a very successful contest.

The string of colored lights which were purchased by the Chamber of Commerce and placed around the court house square for the first time last year, were put up early this week and has materially added to the beauty of the city after dark.

It has been stated that a large number of the homes and business firms of Canyon will enter in the contest this year and several have already had their names placed on the entry book. This book is being kept at the News office and anyone desiring to enter the contest may either call in person or by telephone and your name will be entered in contest.

The award will be made on practically the same basis as last year with the homes being judged from the outside appearance at night and the business houses being judged from both the outside and inside. The first prizes will be \$25.00 each; the second \$5.00 each; and the third \$10.00.

Mr. Kleinschmidt states that the date for closing entries in the contest will be made next week. At the same time the date for judging the entries will also be made public.

## Robbers Active in Canyon During Past Week End

Breaking a glass in the back door and lifting the night latch, burglars entered the Eastwood Store between 5 and 6 o'clock Saturday morning and carried away goods valued at \$200. The loot consisted mainly of several pairs of cowboy boots, socks, ties and shirts.

It is believed that they might have attempted to tamper with the safe but were frightened away. Mark Foster, owner of the Eagle Cafe, was in the cafe shortly after 5 o'clock and heard noises in the adjoining building. He states that he thought perhaps it was someone who had come to work early and paid no attention to it as several lights were turned on as he passed the front door of Eastwoods.

Shortly before 6 o'clock night-watchman Chas. Stratton discovered the broken glass in the rear door of the building and made investigations but no trace of the burglars was found. It is believed that they were amateur thieves in the manner in which they worked.

S. V. Wirt, night watchman in the vicinity of the College, freighted away two burglars that had entered the Buffalo, about 11:00 o'clock Sunday night. As soon as he discovered the persons in the building, Mr. Wirt summoned help, but in the meantime the burglars had made their escape through a rear window in the building.

Entrance to the building was gained by breaking a window in the rear of the building. Cash registers were robbed, yielding a total of \$10.65. If merchandise was stolen it was not of sufficient quantity to be noticeable, Ray Campbell stated.

## Arnold Proposes County Bid on the Hiway Construction

E. F. Arnold was in the city Tuesday from his farm in the south part of the county with two proposals which would relieve the labor condition during the coming two or three months while there is no work for the farmers on their own lands. He will be back Saturday to meet with the commissioners court, hoping that some definite action may be taken.

Mr. Arnold proposes first that Randall county bid on the drainage and grading contract on the highway west. He states that the county has the heavy machinery ready to do this work. That the farmers will work for the county at a very reasonable rate during the early part of the year, and that they will be able to furnish the necessary plows and graders. Furthermore, there are plenty of idle trucks in the county which may be hired to do all of the hauling of sand and gravel. He believes that farmers will bid to do the hauling even from the gravel pits west of Amarillo at a price less than the railroads charge.

Mr. Arnold states that there are plenty of concrete mixers large enough to do all of the concrete work on the culverts on this highway.

The second proposal which Mr. Arnold will lay before Division Engineer Bailey is in regard to the highway south to Happy. It is stated that the state highway department favors caliche with a treatment of penetrating topping. Mr. Arnold proposes that the state employ farmers to do the hauling of the caliche right away, at the same rate as the state and county would have to pay contractors. Instead of hauling the caliche to the roadbed, then ponding it, Mr. Arnold states that if the caliche was hauled there now, and allowed to stand under the traffic and spring rains, it would be ready for the topping without piping the water for ponding as will be the case if a contract is let.

Mr. Arnold states that while he lived in Oregon he saw this very idea worked out. The state saved a thousand dollars per mile on the highway it built through his county by employing local labor rather than letting the contract to an outsider, who brings in very largely his own crew and own machinery. Farmers are very anxious right now to have work to make a little money before the spring opens, states Mr. Arnold, and even if the county did not save money on these two highways, it would at least give employment to people who need it.

## Forbid Parking on Fourth Avenue for Church Services

Members of the Methodist and Baptist churches have been requested by the city officials to stop parking their cars on Fourth avenue during church services. The Avenue is narrow, and the traffic very heavy on Sundays.

Pastors notified the congregations Sunday of the request. It is hoped that another unfortunate accident may be prevented, such as was seen in the city last week owing to parking on Fourth avenue.

## VETERANS HOSPITAL TO BE REMEMBERED BY AUXILIARY

The World War veterans who, a dozen years after the war, still will not be "out of the trenches by Christmas," will receive Christmas gifts from the American Legion Auxiliary this year. The men are sick and disabled veterans, confined to the U. S. Veterans Hospital at Legion, Kerrville, Texas.

Palo Duro Unit's gifts to the hospitalized veterans will be articles of substantial value selected as far as possible to meet the wishes and needs of the individual veterans.

Palo Duro unit has never failed to send just what has been requested by the state officers, according to Mrs. Hubert O. Price, Rehabilitation Chairman.

## VERDICT FAVORS DEFENDANT IN COUNTY COURT SUIT

A suit in the County Court this week which attracted much attention among the court room spectators, was the case of F. L. Stevens vs. A. H. Hunt. The case has been in the court since July 18, 1929 and was for an alleged debt of \$350, said to be overdue.

Late yesterday afternoon the jury returned a verdict favoring the defendant. Notice of appeal was given by the attorneys for the plaintiff. No criminal cases have been tried in this term of County Court.

Created Disturbance When Bus Driver Tried to Stop Him From Drinking Liquor on Pickwick Bus—Was Former Federal Officer.

## Careful Use of Decorations Is Urged by Foster

Fire Marshal Lee Foster has issued a warning concerning the Christmas season fire hazards which are created by the use of inflammable materials in decorations for the Holidays.

Mr. Foster points out that numbers of fires occur over the state each year because of carelessness in handling the inflammable materials around Christmas trees and near fires and burning candles. In many instances such fires cause the loss of not only the property but the loss in lives, especially children.

The holidays introduce special hazards, in the home and in the commercial districts in the form of combustible decorations, candles, lanterns or fireworks, he states. Decorations which have been impregnated with a solution which prevents their burning rapidly should be recommended for purchase. Asbestos should be used instead of cotton or wool for Christmas "snow." Substantial candlesticks should be used, and candles should not be put on the Christmas trees, in the windows or near curtains, near decorations or in paper lanterns.

The local fire fighting organization will greatly appreciate any co-operation on the part of anyone and everyone in keeping down the fire loss record during the holiday season, Mr. Foster says.

## Register 23 Cars for Next Year in County

The move is being sponsored by the dairymen's organization in this county, but the milk is donated by the individual members who are in a position to spare a certain amount of milk from their production each month.

The milk is delivered in the usual manner to the Pool Creamery Company and the Metzger Creamery company of Amarillo, where it is bottled and delivered to the Salvation Army headquarters free of charge. There it is to be distributed under the supervision of the Salvation Army.

## Carnival at High School Held Tonight

Canyon High School, under the leadership of the Senior class, will present the annual carnival with the added attraction of "The Follies" at the high school building beginning at 7:15 tonight.

There will be booths of all kinds arranged for the carnival similar to those of the outdoor shows. "The Follies" which begin at 8:40 will feature musical numbers and will be climaxed by the crowning of the king and queen whose identities are not to be made known to the public until the coronation.

John Mahle visited friends in Plainview Tuesday of this week.

After creating a disturbance on a transcontinental Pickwick bus, threatening the lives of the bus driver, a fellow passenger, and terrorizing other passengers of the bus, Brunson McCarver, 42 of New York City, attempted to shoot Chief of Police Frank Hicks and Deputy Sheriff Bob Barnett, when they halted the bus four miles north of Canyon about 3:30 Monday afternoon to arrest McCarver. Both Hicks and Barnett retaliated fire after McCarver had shot at them. McCarver slumped to the ground after stepping from the bus and died almost instantly.

McCarver, who was a passenger of the Pickwick Lines from St. Louis to Los Angeles, had changed buses in Amarillo and began creating a disturbance shortly after the bus left the Amarillo station. Looking into the rear view mirror, Roy Burnett, driver of the bus, saw McCarver taking a drink of liquor from a bottle he had. Burnett requested that McCarver dispose of the liquor or get off the bus. Whereupon McCarver is said to have begun cursing Burnett. The bus was halted just outside of Amarillo at a sandwich shop where Burnett attempted to call Amarillo police.

No telephone connections could be made and the passenger was told that the journey would be resumed if he (McCarver) would conduct himself as a gentleman. As the driver started to enter the bus, it is claimed that McCarver drew a gun and chased Burnett around the bus. The driver entered the bus at the front door and McCarver was let in at the back door by a fellow passenger.

Word was telephoned to the Sheriff's office here that a man was on board the bus bound for Canyon and it was thought that he was trying to hold up the driver and passengers. Sheriff Fry and Deputy Barnett planned to halt the bus at the Highway filling station. They halted Chief Hicks who was passing and the three drove north along the highway until they sighted the approaching bus and they turned around in the road to await the bus, heading Hick's car south, and stopping on the west side of the road.

As the bus approached Burnett halted it. Deputy Barnett stepped to the left side of the bus as the driver opened the door. Hicks was standing in front of the bus and Sheriff John Fry, unarmed, was on the right side of the bus. Burnett not knowing that McCarver was just back of him and across the aisle, told Barnett that the man was in the back of the bus. As he glanced over his shoulder, Burnett saw McCarver draw his gun and the driver jumped to the ground from his seat. As he did so, McCarver is said to have shot at him. Then the passenger turned and fired at Chief Hicks, turning to fire his third shot at Barnett. In the meantime McCarver had moved towards the driver's seat in the bus and both Hicks and Barnett returning fire with deadly aim.

McCarver managed to step from the bus and slumped to the ground. He pulled himself up to fire a last time to empty his Colt's 38 automatic at Barnett. McCarver died almost instantly.

Identification papers on McCarver's body indicated that he had at

## Hope to Reach an Agreement on West Highway Saturday

The Commissioners Court spent Tuesday afternoon in discussing the highway west, and finally agreed to set Saturday as the day on which it is hoped that details will be worked out to start action on the right-of-way. District Engineer Bailey was with the court Tuesday to discuss plans. Perry Pierson, attorney for the county, was of the opinion that suit would have to be filed in order to secure a portion of the highway.

A delegation came before the court asking that action be speeded up, in order to furnish labor for local men during the winter months.

Judge B. F. Fronabarger stated yesterday that no agreement had been reached as to the right-of-way. The court had before it a proposal from the city of Canyon regarding locating the highway on First Avenue, north of the railway, but this was not accepted for the present as being too indefinite. The present survey calls for the highway to go along the north boundary line of the city, but obstacles have been met as to the right-of-way.

The gap left in the highway north to Amarillo was not paved last week, as stated by the News, only caliche topping placed there by local labor under the direction of the local maintenance crew of the state highway department. It is stated that this part of the paving will be let with the contract on the highway west. It is also stated that the paving was not done at this time owing to the fact that the location of the new highway west will determine the width of the pavement at this particular place.

Judge Fronabarger states that it is hoped the highway west will be completed in detail at the meeting Saturday, and that the state highway commission will let the contract for the grading and drainage at the January meeting.

## Rotary Club and Buff Football Men Eat Together Tues.

The Buffalo football men were entertained Tuesday at the Rotary luncheon by the members of the club. The day was turned over to the discussion of athletics.

Captain Weldon Logan introduced the members of the squad present, and Captain-Elect Raymond Powell of Wellington expressed his thanks to the members of the squad and to the members of the Rotary Club.

Visiting Rotarians were Harve Allen and P. C. Bennett of Amarillo; guests were John R. Edmonds of College Station, Dr. Paul E. Stewart of Stratford.

George Cox extended an invitation to the Rotary Club to meet at his home northwest of Canyon in the near future, and the invitation was gratefully accepted.

Wesley Kleinschmidt announced the meeting of the Chamber of Commerce for Friday night and urged every man and professional and business woman in Canyon to attend.

The Canyon high school Eagles will be entertained by the Rotary Club next Tuesday.

The following Buffaloes were introduced: Cooper, Lockney; McClelland, Clovis; Pennick, Canyon; Johnson, Canyon; Powell, Wellington; Duncan, Pampa; O'Donnell, Canyon; Manning, Ralls; Williams, Canyon; Gillham, Canyon; Layne, Hereford; Comer, Clovis; Burke, Ralls; Haley, Big Spring; Pennick, Canyon; Devin, Tulsa; Brotherton, Lockney; Cayler, Olton; Bennett, Amarillo; Jameson, Canyon; Keith, Ralls; Perryman, Ralls; Clark, Turkey; Ward, Tulsa; and Assistant Coach Mitchell Jones.

Coaches Burton and Reeds were forced to leave for Dallas and did not get to attend the luncheon.

President Doug Shirley of the Rotary Club extended the welcome of the club to the visitors, and best wishes for the coming year.

President Joe Hill of the College spoke briefly regarding athletics in the college. This was the first team that had ever achieved second place in the T. I. A. A. In basketball, the Buffs had always equaled the Southwest conference. Mr. Hill expressed himself as highly pleased with the result of the season and the outlook for the coming year. The college has produced more high school coaches than any school in West Texas, which indicates the quality of work in the department, and the type of men coming here. Mr. Hill believes in the idea of a co-educational institution. He is greatly pleased with the increase number of boys this year.

The athletics plant has been very rapidly improved in the past eight years, and now has a good field, bleachers, and field house. It is very expensive to bring the teams 300 to 400 miles to play the Buffaloes, and therefore every person in Canyon and Amarillo should be supporter of the Buffalo teams.

Mr. Hill highly praised the work of Burton with the basketball men and Reeds and Jones with the football teams.

## More Pictures to Appear in Papers

Ray V. Davis received a request from the Rocky Mountain News, of Denver, Colo., for the use of a number of pictures of the Palo Duro Canyons to appear in their issue of December 14. Mr. Davis states that he granted permission for the News to use pictures made by him.

The pictures of the Palo Duros have gained wide spread interest within the past few months. Several weeks ago a group of Palo Duro pictures appeared in the Denver Post.

Mr. Davis believes that the use of the pictures are creating a very favorable interest in the canyons. He says that he is allowing the publication of pictures made by him, without charge to the publisher.

As soon as he discovered the persons in the building, Mr. Wirt summoned help, but in the meantime the burglars had made their escape through a rear window in the building.

Entrance to the building was gained by breaking a window in the rear of the building. Cash registers were robbed, yielding a total of \$10.65. If merchandise was stolen it was not of sufficient quantity to be noticeable, Ray Campbell stated.

## Arnold Proposes County Bid on the Hiway Construction

E. F. Arnold was in the city Tuesday from his farm in the south part of the county with two proposals which would relieve the labor condition during the coming two or three months while there is no work for the farmers on their own lands. He will be back Saturday to meet with the commissioners court, hoping that some definite action may be taken.

Mr. Arnold proposes first that Randall county bid on the drainage and grading contract on the highway west. He states that the county has the heavy machinery ready to do this work. That the farmers will work for the county at a very reasonable rate during the early part of the year, and that they will be able to furnish the necessary plows and graders. Furthermore, there are plenty of idle trucks in the county which may be hired to do all of the hauling of sand and gravel. He believes that farmers will bid to do the hauling even from the gravel pits west of Amarillo at a price less than the railroads charge.

Mr. Arnold states that there are plenty of concrete mixers large enough to do all of the concrete work on the culverts on this highway.

The second proposal which Mr. Arnold will lay before Division Engineer Bailey is in regard to the highway south to Happy. It is stated that the state highway department favors caliche with a treatment of penetrating topping. Mr. Arnold proposes that the state employ farmers to do the hauling of the caliche right away, at the same rate as the state and county would have to pay contractors. Instead of hauling the caliche to the roadbed, then ponding it. Mr. Arnold states that if the caliche was hauled there now, and allowed to stand under the traffic and spring rains, it would be ready for the topping without piping the water for ponding as will be the case if a contract is let.

Mr. Arnold states that while he lived in Oregon he saw this very idea worked out. The state saved a thousand dollars per mile on the highway it built through his county by employing local labor rather than letting the contract to an outsider, who brings in very largely his own crew and own machinery. Farmers are very anxious right now to have work to make a little money before the spring opens, states Mr. Arnold, and even if the county did not save money on these two highways, it would at least give employment to people who need it.

## Forbid Parking on Fourth Avenue for Church Services

Members of the Methodist and Baptist churches have been requested by the city officials to stop parking their cars on Fourth avenue during church services. The Avenue is narrow, and the traffic very heavy on Sundays.

Pastors notified the congregations Sunday of the request. It is hoped that another unfortunate accident may be prevented, such as was seen in the city last week owing to parking on Fourth avenue.

## VETERANS HOSPITAL TO BE REMEMBERED BY AUXILIARY

The World War veterans who, a dozen years after the war, still will not be "out of the trenches by Christmas," will receive Christmas gifts from the American Legion Auxiliary this year. The men are sick and disabled veterans, confined to the U. S. Veterans Hospital at Legion, Kerrville, Texas.

Palo Duro Units' gifts to the hospitalized veterans will be articles of substantial value selected as far as possible to meet the wishes and needs of the individual veterans.

Palo Duro unit has never failed to send just what has been requested by the state officers, according to Mrs. Hubert O. Price, Rehabilitation Chairman.

## VERDICT FAVORS DEFENDANT IN COUNTY COURT SUIT

A suit in the County Court this week which attracted much attention among the court room spectators was the case of F. L. Stevens vs. A. H. Hunt. The case has been in the court since July 18, 1929 and was for an alleged debt of \$350, said to be overdue.

Late yesterday afternoon the jury returned a verdict favoring the defendant. Notice of appeal was given by the attorneys for the plaintiff. No criminal cases have been tried in this term of County Court.

## Careful Use of Decorations Is Urged by Foster

Fire Marshal Lee Foster has issued a warning concerning the Christmas season fire hazards which are created by the use of inflammable materials in decorations for the holidays.

Mr. Foster points out that numbers of fires occur over the state each year because of carelessness in handling the inflammable materials around Christmas trees and near fires and burning candles. In many instances such fires cause the loss of not only the property but the loss in lives, especially children.

The holidays introduce special hazards, in the home and in the commercial districts in the form of combustible decorations, candles, lanterns or fireworks, he states. Decorations which have been impregnated with a solution which prevents their burning rapidly should be recommended for purchase. Asbestos should be used instead of cotton or wool for Christmas "snow." Substantial candlesticks should be used, and candles should not be put on the Christmas trees, in the windows or near curtains, near decorations or in paper lanterns.

The local fire fighting organization will greatly appreciate any co-operation on the part of anyone and everyone in keeping down the fire loss record during the holiday season, Mr. Foster says.

## Register 23 Cars for Next Year in County

Twenty-three cars and one truck had been registered for 1931 in Randall county at noon Wednesday according to John Fry, tax collector.

Mr. Fry is of the opinion that the payment of all taxes in this county is as good or perhaps a little better than at this time last year.

## Dairymen Begin Distribution of Free Milk Monday

Distribution was begun Monday morning, December 8 of the milk donated by members of the Randall County Dairymen's Association to the charitable institutions of Amarillo. The amount to be delivered each day will be ten gallons, bottled in quart bottles. This will continue for a period of 90 days making the gift to the charities total 900 gallons of fresh pure milk.

The move is being sponsored by the dairymen's organization in this county, but the milk is donated by the individual members who are in a position to spare a certain amount of milk from their production each month.

The milk is delivered in the usual manner to the Pool Creamery Company and the Metzger Creamery company of Amarillo, where it is bottled and delivered to the Salvation Army headquarters free of charge. There it is to be distributed under the supervision of the Salvation Army.

There will be booths of all kinds arranged for the carnival similar to those of the outdoor shows. "The Follies" which begin at 8:40 will feature musical numbers and will be climaxed by the crowning of the king and queen whose identities are not to be made known to the public until the coronation.

John Mahle visited friends in Plainview Tuesday of this week.

## After creating a disturbance on a transcontinental Pickwick bus, threatening the lives of the bus driver, a fellow passenger, and terrorizing other passengers of the bus, Brunson McCarver, 42 of New York City, attempted to shoot Chief of Police Frank Hicks and Deputy Sheriff Bob Barnett, when they halted the bus four miles north of Canyon about 3:30 Monday afternoon to arrest McCarver. Both Hicks and Barnett retaliated fire after McCarver had shot at them. McCarver slumped to the ground after stepping from the bus and died almost instantly.

McCarver, who was a passenger of the Pickwick Lines from St. Louis to Los Angeles, had changed busses in Amarillo and began creating a disturbance shortly after the bus left the Amarillo station. Looking into the rear view mirror, Roy Burnett, driver of the bus, saw McCarver taking a drink of liquor from a bottle he had. Burnett requested that McCarver dispose of the liquor or get off the bus. Whereupon McCarver is said to have begun cursing Burnett. The bus was halted just outside of Amarillo at a sandwich shop where Burnett attempted to call Amarillo police.

No telephone connections could be made and the passenger was told that the journey would be resumed if he (McCarver) would conduct himself as a gentleman. As the driver started to enter the bus, it is claimed that McCarver drew a gun and chased Burnett around the bus. The driver entered the bus at the front door and McCarver was let in at the back door by a fellow passenger.

Word was telephoned to the Sheriff's office here that a man was on board the bus bound for Canyon and it was thought that he was trying to hold up the driver and passengers. Sheriff Fry and Deputy Barnett planned to halt the bus at the Highway filling station. They hailed Chief Hicks who was passing and the three drove north along the highway until they sighted the approaching bus and they turned around in the road to await the bus, heading Hick's car south, and stopping on the west side of the road.

As the bus approached Burnett halted it. Deputy Barnett stepped to the left side of the bus as the driver opened the door. Hicks was standing in front of the bus and Sheriff John Fry, unarmed, was on the right side of the bus. Burnett not knowing that McCarver was just back of him and across the aisle, told Barnett that the man was in the back of the bus. As he glanced over his shoulder, Burnett saw McCarver draw his gun and the driver jumped to the ground from his seat. As he did so, McCarver is said to have shot at him. Then the passenger turned and fired at Chief Hicks, turning to fire his third shot at Barnett. In the meantime McCarver had moved towards the driver's seat in the bus and both Hicks and Barnett returning fire with deadly aim.

McCarver managed to step from the bus and slumped to the ground. He pulled himself up to fire a last time to empty his Colts 38 automatic at Barnett. McCarver died almost instantly.

Identification papers on McCarver's body indicated that he had at

"Cussing" is the great American safety valve, and John figures that if he can bundle it all up in one package that he will escape the ire of his readers for the other 51 weeks. However, the News man finds that most people are kind to their newspaper men; that they overlook the faults, and the short comings of their local publications, and consider that the weekly newspaper man is doing his job for the community just about as good as is the local banker, and the local merchant, and the local doctor. People living together in a local community are about the same stripe, and none are much above the average one with the other. The local newspaper man makes mistakes, and so do all the other business and professional men; the local newspaper man is doing his dead level best to help build a good town; some other professions do not contribute much to this work. The newspaper man's errors and mistakes are glaring, and stare him in the face; the other professions are able to hide them. But all in all, the local editor should be cussed occasionally. It is good for him. It is good for any one to have his faults exposed occasionally. The fellow who gets too cheery should be taken down a notch or two on occasions, and the local newspaper man usually gets his, often and upon needed occasions.

## County Agent Upchurch Discusses the Construction of Proper Poultry Houses

In response to the kind invitation of the News, we want to discuss the matter of farm poultry so many so called diseases have flocks again this week. I am of-

CONSTRUCTION OF IDEAL POULTRY HOUSE SHOWN

colds that are so often caused directly from faulty housing of the hens.

The first and perhaps most important thing next to having good birds is the matter of providing the right kind of building for the housing the layers in the winter time. Good hens, good feeding and other care is very important but unless a good house is provided there can be little hope of profitable egg production from even the best birds. Eggs can be produced in winter time in the Panhandle as cheaply as anywhere in the country if the right methods are followed. Egg production like the production of any other farm product must be done cheaply if any profit remains after feed and other costs have been paid. The principle thing that makes for cheap production is a high rate of production from the flock. The hens must lay steadily throughout the winter months. If the whole flock is to take cold and production stop every time a severe storm comes along, then the rate of production will depend on the weather with the result that the flock will show little or no profit for the year. In providing the right kind of winter home for the laying hens, it is not necessary to have a very expensive house. One of the poorest laying houses that I know of in the Panhandle is built of brick and cost at least double the amount of money that it should have cost. On the other hand I know of a certain farm in Randall county where the hens roost all winter in a big open cow shed that was vacated when the owner sold his cattle and put all his pasture in wheat. This flock of hens lay some eggs throughout the winter and do not take cold as readily as some other hens that are housed in what is considered good houses, but are confined too closely part of the time and are allowed to run out in bad weather. The point is that the high priced house is no better or not as good as the open cow shed unless it is built on the right plan. A hen must have more fresh air in proportion to body weight than any farm animal. For this reason the house should have plenty of opening along the front. The right plan for the house means that the house will be built in the right proportion. It is of the utmost importance that the house be of the proper depth from the front to the back in the case of the shed roof type house which is the most practical for the average farm flock.

In building a laying house by this plan the length from east to west (house fronting south) should never be very much greater than the depth from front to back. We have attempted to show a model laying house in the accompanying illustration, which by the way, is a photograph of a Randall county laying house. This house is 20x40 feet with a tight partition in the center making two 20x20 foot rooms. It is a little over 9 feet high in front and about 5 1-2 feet high in the rear. In this house with an opening all or most of the way across the front there can be no bad drafts over the roosts at the back of the house. This house is built as near air tight as possible with the exception of the opening across the front. The upper three foot strip across the front is covered with a good grade of glass substitute while the lower three feet is a tight wall as is the balance of the building except the opening which is covered with poultry netting. There is a cloth curtain on the inside which may be lowered to cover all or any part of the opening when necessary which is only in very severe weather.

The most important thing of all in building a laying house is to get the dimensions right. Do not get the total length of the house from east to west greater than the depth of the house from front to back. A house might be 14x14 for a small flock but it should never be 12x16, because in a long narrow house there will be drafts over the roosts if the necessary opening is left at the front. A good tight house 12 feet from front to back and 20 feet long would be a poor house regardless of how well it might be built, or how many good ventilators it might have. A hen house might be built in square size from 12x12 up to 20x20 feet, or it might be 20x24, but if a larger house than that is desired it should have partitions so as to hold to these dimensions. The illustration shows the most practical style of building for the ordinary farm flock requirements. It is not only the most practical style but it is the cheapest to build in almost any given size.

It does not make so much difference what the material used may be so long as a good tight weather proof wall is made and covered with a roof that is not rain proof but air tight as well. Many a good poultry house is ruined for want of a good roof over it. If we regulate the air opening in the front of the house and put on a roof that will allow air to pass we will defeat the very purpose of the open front. I will be very glad to assist any farmer in Randall county in the planning of poultry houses at any time.

W. H. UPCHURCH, County Agent.

## Brown Addresses Panhandle Speech Arts Association

At the opening meeting of the Panhandle Speech Arts Association held last Tuesday evening in the Women's Club Rooms in Amarillo, Miss Mary Morgan Brown was for the second time this quarter principal speaker on the program of that association.

The entire program was planned around Miss Brown's speech, which was entitled, "My Impressions of the Scottish Border." In her talk Miss Brown told of the many interesting scenes she had visited while at the Border during the summer months. She also read for the audience several ballads and Border poems.

That she was received most graciously was proved by the many lovely floral gifts made to her after the program.

Other people on the program were Miss Cooper, of Amarillo, who danced the Highland Fling; Mr. Mack, of Amarillo, a native of Scotland, who read two short Scotch poems, and Mrs. Turk, also of Amarillo, who sang "Annie Laurie."

At the close of the program refreshments were served to the members and their guests. While in Amarillo, Miss Brown was the house guest of Mrs. R. L. McMeans.

## Lighting System in Poultry Plants Bring Big Egg Increase

By J. L. Sedgwick in Standard Poultry Journal.

Poultry alone will pay the price of installing electricity on the farm and yield a neat profit in addition, because, experience has revealed, the application of electricity to the poultry industry frequently pushes egg production in winter to more than double the normal yield.

When the idea of giving hens electric lights by which to work in winter first was introduced to poultrymen it met with some doubt and not a little satire. Today the modern poultryman is likely to ask, in a surprised tone of voice, if there is anyone who does not know that electric lights increase egg production.

While production mounts from 0 to 100 percent with the application of lights, the ratio of profit shows a still greater gain because the increase in eggs comes in December, January and February and March, when prices are highest.

A twelve-hour day is accepted as the standard for best winter egg production. Those short, dismal days that begin with the departure of autumn send the hens to roost before 5 o'clock in the afternoon. Then, for 15 hours they sit inactive. They shiver in the cold because they have not had time enough to eat and exercise and keep in good condition. Their entire energy is consumed in resisting the weather.

A few years ago, when poultrymen began studying the shortage of winter eggs, they reasoned that the short day was to blame for the strike in the poultry house during the cold months. Experiments with lights started and the results were amazing.

Today it is not necessary to go to poultry experts to learn the value of giving the hens a reasonable working day. Go right to the farmer and check his results.

In a New York community, G. E. and E. H. Munt operated a general farm of more than 300 acres. Part of that farm's business is poultry and about 600 White Leghorn hens are kept during winter months.

The Munts bought the first farm electric plant that was sold in Genesee County in 1917 and has been lighting their poultry houses ever since. Immediately upon lighting the laying houses in winter, the egg production picks up and it continues to increase right on through the cold months, reaching the peak season, 75 eggs daily to each 100 hens. The winter average is about 50 eggs to 100 hens. Other flocks in the same neighborhood, which have all conditions the same except for lights, produce only about 30 eggs to the 100 hens for the winter average.

If that is reduced to profit, with eggs at 60 cents a dozen, it will be seen that more than \$400 income, directly due to electricity, comes from the Munt flock each winter.

Only a part of the electric bill can be charged to the chickens if one wants to keep the figures accurate. Munt runs a washer, an iron, a cream separator, a fanning mill and lights every building on the place from the same electric plant. Therefore, the operating cost should be divided among various activities on the farm, leaving the cost of current actually consumed in the poultry house a minor item.

Over in another county, George Luedemann has a similar flock. Increased egg production at his establishment with the installation of electric lights netted him about \$7.50 a day.

At West Henrietta, L. T. Dunn, generally considered the outstanding poultryman of the section, declares that it will pay a farmer with only 200 hens to install electricity. The profits will pay for the cost of installation, he says. There are about 2,000 chickens on the Dunn farm.

The hens on the farm of Mrs. Mollie Porter of Kentucky were laying a dozen eggs a day before they got electric lights in their houses. Then production jumped to 45 dozen a week.

Harry R. Lewis of Davisville, R. I., speaks as an authority, for he is known internationally for his ability as a poultry raiser. He uses electricity in the hen houses from October 1 to April 1 and says that no poultryman can afford to be without electricity, because of the increased egg production it brings.

And so the story goes. Every state has its poultry growers who have found that a longer day means greater egg production.

Using electric lights to increase the egg yield is not forcing the hen to work overtime. The idea, held by a few people, that the lights cause a hen to lay two eggs a day is ridiculous.

A hen which is in good condition normally will lay more eggs than one which is underfed and needs exercise. Electricity merely gives the poultry time to eat plenty of food and get plenty of exercise. The result is recorded in the experience of the Munts, the Luedemanns, the Dunns and hundreds of other people.

The method of lighting poultry houses varies from farm to farm, but the 12-hour day is generally accepted as correct. On the Munt farm the houses are lighted partly in the morning and partly in the evening, but on no regular schedule. If the lights are turned on a little late some morning, they are left on a little longer at night to make up the time. Poultry house lights on the Munt farm are operated from a switch in the farmhouse.

Mr. Luedemann does all his artificial lighting in the morning and an automatic clock turns the switch for him. Mr. Luedemann pumps water with electricity also and he says that saves him four hours work a day.

The number of lights in the chicken houses differs. On the Munt farm one is placed in each of the laying houses, which are about 10 by 12 feet. In larger buildings the light is increased accordingly. A 60-watt bulb is sufficient to illuminate a small poultry house, the specific requirement being to have the houses light enough to keep the flock carrying out its normal life as it would be between dawn and sunset.

## Brown Addresses Panhandle Speech Arts Association

At the opening meeting of the Panhandle Speech Arts Association held last Tuesday evening in the Women's Club Rooms in Amarillo, Miss Mary Morgan Brown was for the second time this quarter principal speaker on the program of that association.

The entire program was planned around Miss Brown's speech, which was entitled, "My Impressions of the Scottish Border." In her talk Miss Brown told of the many interesting scenes she had visited while at the Border during the summer months. She also read for the audience several ballads and Border poems.

That she was received most graciously was proved by the many lovely floral gifts made to her after the program.

Other people on the program were Miss Cooper, of Amarillo, who danced the Highland Fling; Mr. Mack, of Amarillo, a native of Scotland, who read two short Scotch poems, and Mrs. Turk, also of Amarillo, who sang "Annie Laurie."

At the close of the program refreshments were served to the members and their guests. While in Amarillo, Miss Brown was the house guest of Mrs. R. L. McMeans.

An economist in Chicago tells the people to buy state products, but with Thanksgiving dinners to think about it will take lots of courage to overlook Idaho potatoes and Cape Cod cranberries.

The latest indoor miniature golf course opened in Chicago is illuminated by ultra-violet rays, and that, you will agree, puts a different complexion on the game.

With sausages being made in tins to match breakfast rooms, many will feel that the worst has come to worst.

## New Band Uniforms Will Arrive Soon

In the near future twenty-six new uniforms will be received by the Buffalo Band. This will be the first complete refitting of the band since 1923.

The new uniform is designed in the college colors, maroon and white. The coat is of maroon, military style with cutaway collar and white belt of the famous "Sam Brown" type. The trousers are white with a maroon stripe down the side of each leg. The cap is also maroon in a military design, of the Sousa style, with a medium droop visor.

The old uniforms have held up under several years of service and much criticism, and if the new ones do as well, it is reported, they will be a satisfactory investment.

It is hoped that the uniforms will arrive in time for the Band's appearance in Amarillo, Dec. 11th.

## HERE'S SOMETHING I CAN'T TELL MY HUSBAND

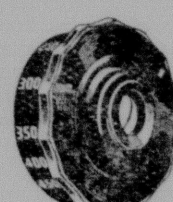

HOPE he reads this ad. That's the only way he'll know I'd rather have a Tiffin Model Magic Chef Gas Range than anything else in the world. He thinks all I like are dainty things to wear and would never believe I actually prefer a stove for Christmas. But what a stove!

This Tiffin is the most enchanting thing I've seen for years. It is to the kitchen what a grand piano is to the living room—a real mark of distinction. So compact, so colorful, so unusual; every woman falls in love with it at first sight. And all my friends who have them say they're perfect bakers.

I've always wanted a stove with a Red Wheel Oven Heat Regulator. I'm tired spending hours needlessly fretting in the kitchen. The Tiffin has a Red Wheel and every other modern improvement to make it easy to cook the kind of meals people praise.

Like other women, I prefer a gift I can share with the family, and we'd all enjoy the advantages of this wonderful, new gas range. The price of the Tiffin is almost unbelievable—it's so low. Maybe my husband will surprise me and have one installed. Here's hoping.

### New Band Uniforms Will Arrive Soon

In the near future twenty-six new uniforms will be received by the Buffalo Band. This will be the first complete refitting of the band since 1923.

The new uniform is designed in the college colors, maroon and white. The coat is of maroon, military style with cutaway collar and white belt of the famous "Sam Brown" type. The trousers are white with a maroon stripe down the side of each leg. The cap is also maroon in a military design, of the Sousa style, with a medium droop visor.

The old uniforms have held up under several years of service and much criticism, and if the new ones do as well, it is reported, they will be a satisfactory investment.

It is hoped that the uniforms will arrive in time for the Band's appearance in Amarillo, Dec. 11th.

The high school girls of the vocational home economics class of the training school of W. T. are going to send delegates to the state clothing contest which will be held at Lubbock in the spring of 1931.

Even if financial conditions are bad, the girls are going to earn their own money for the trip.

On December 15 they will serve a buffet luncheon at the college. They have set the price low enough so that it will be attractive to college students.

The girls have planned their own menu, will cook and serve the luncheon, and take care of all ordering of supplies and disposal of materials which are left.

The luncheon is 50 cents and tickets may be bought Thursday, Friday and Saturday. Townspeople who wish to attend the luncheon should phone Miss Correla Nuzum at the Home economics department of the college, or 441J for reservations.

## Vocations Class To Write Books On Chosen Career

The vocational guidance class under the instruction of Mr. Carruth is making career books. Each member of this class has chosen the vocation or profession which he or she intends to follow in the future. Material along this line has been very popular, and will continue to be until these books are completed. These books will contain about seventy-five pages of illustrations and valuable material on every phase of the work planned. Letters have been written to business colleges, engineering schools, and school of dramatics and music which will help make these books more worth while to each owner.

The students in this class have studied themselves as to their talents and interests. The circumstances of each have also been considered, and every member has tried to make a wise selection.

The list given below includes the names of the students of this class and the choice of their vocations:

Clark Ash, engineer.  
Hosea Foster, lawyer.  
Jim Cabe, engineer.  
M. E. Cleavinger, merchant.  
Amogene Fowler, music teacher.  
Sybil Gidden, home economics teacher.  
Mary Orton, teacher.  
Bettye Sternberg, dramatic director.  
Melva Gamewell, journalist.  
Irving Gamewell, professional golfer.  
Pauline Mayben, nurse.  
Katharine Bryant, home economics teacher.  
Charline Wiseman, home executive.

## HOME ROOM PROGRAM

Some very interesting and worth while programs have been given in school home rooms during the last few weeks. Among the subjects discussed are manners at home and at the table, citizenship and its connection with education, poverty, crime, the community, the church, the home, and the press. Ways in which to spend one's leisure time is another subject. The topic of citizenship has been discussed by Mr. Carruth in one or two rooms. The Constitution of the United States is being studied in one of the senior rooms and another, the subject of travel has been talked on.

The students are beginning to get more from the programs now than they did when the home room plan was first organized, and it is hoped they will continue to enjoy and get helpful information from them.

## SENIOR BOX SUPPER

The seniors sponsored a box supper last Tuesday night in the high school auditorium. The public was invited, but only a small group attended.

Proceeding the box supper various contests furnished sufficient amusement. Several candidates were run for each thing, and the one who received the largest number of votes won. A penny counted one vote. The winners were:

The prettiest girl ever attending Canyon High School—Miss Rusk.  
The mother who is the best sport—Mrs. Brady.

The mother who is the best Eagle supporter—Mrs. Taylor.

The father who is the best Eagle supporter—Mr. Orton.

The boy with the largest feet—Willard Middleton.

The boxes were auctioned by Mr. Orton. The proceeds from this box supper go for the senior candidates for carnival king and queen.

## HOME ECONOMICS CLUB

Mrs. Brady entertained the Stitch and Sizzle Home Economics Club at their regular meeting last week by reading a story "Love and Chaff." The club has just finished their first project of making a complete baby layette. They are at present making Christmas presents.

## GIRL SCOUT NEWS

The Girl Scouts met Saturday, Dec. 6, in the scout house. The regular meeting time was changed to Saturday at 2:30 o'clock. Lorene Bessie passed the tenderfoot test. Mary Orton passed a bugler's badge requirement. Songs were sung and the meeting was closed with "Taps."

## EL CIRCULO CASTELLANO

El Circulo Castellano met Tuesday, Dec. 2. An interesting talk was given by Miss Weter on the bull fight, which took place in Juarez Thanksgiving. A portion of the time was given to answering curious questions which the Spanish students asked concerning Mexican customs and entertainments.

## FISH CONTEST

The freshman home rooms under the leadership of Miss Weter and Mr. Fox have started a basketball contest to enliven the activities of the freshman class.

A double header in the grade gymnasium was held Friday night. The Minnows defeating the Screech Owls in both games.

## Eagles' Schedule

Several games have been scheduled for the Eagles' basketball team for this season. The earliest of which is Dec. 18th, with Dimmitt here.

Games have been scheduled with Hereford, Pampa, and other towns in traveling distance of Canyon.

By next week we hope to have the Eagles' complete schedule in this space.

## Chapel

Much loud and long applauding was heard from the students of C. H. S. during the chapel program last Thursday, when Mrs. Foster, the music teacher, and Miss Weter, the public speaking teacher entertained them.

Including the encores the program was as follows:

1. A Day in Venice—piano.
- a. Dawn.
- b. Gondoliers.
- c. Venetian Love Song.
- d. Good night.

2. Mrs. Foster's own version of the Rosary—Piano.

3. Musical Readings.

- a. Mississippi.
- b. The Usual Way.

4. I don't gotta go to school—Reading.

5. The Wedding of the Painted Dolls—Piano.

6. Piano.

7. Go Home and Tell Your Mother—Piano.

8. Fabionette—Piano.

9. The Tar Fight—Reading.

10. T rouble Enough—Reading.

The students are hoping that in the near future these talented teachers will give them another similar program.

## SENIOR RINGS ARRIVE

The senior class rings have at last arrived. The class had almost decided they were not going to receive them until after Christmas, but much to their surprise, they learned upon arriving at school that the rings were here. It took only a short while for them to disappear. As usual, a lot of the rings are too large. The class feels like real seniors now—and they act like it, too. All that has been heard since they received their rings is a discussion on them.

## ATHLETIC CLUB

"Football" was the subject chosen by Coach Edgar Brady in addressing the boys' athletic club last Tuesday. He spoke of the present National Championship situation and the teams who were in line for it. He then started speaking on basketball. The boys enjoyed the program very much and will be glad to hear Coach again soon.

## SOPHOMORE BAKE SALE

The sophomores were rather slow about electing their king and queen for the school carnival, but this business was settled at the class meeting Wednesday, and Maxine Middleton and D. B. Pierson were chosen. The class, however, is submitting their entire support to the senior representatives and they want to help them in any way possible.

One of the sophomore representatives to the Student Council explained to the class about the new system of "traffic" regulations. Some discussion was made on a party to be had soon in the high school gym. A committee was also chosen to work out a stunt for the carnival.

An additional meeting was called Thursday to arrange for a bake and candy sale Saturday.

## FRESHMEN MEET

On Thursday, Dec. 4, the freshman class met and the president, T. V. Slack, appointed a committee to decide what kind of booths the class would have at the Carnival. Those appointed on the committee are Helen Hardman, Armour Lee Greenfield, John Stratton and Alton Brasuel.

The committee appointed to learn the regulations of the Carnival was Rosa Cash, Margaret Seay, Gertrude Meador, and Myrtis Wright.

The president of the Student Council and the representatives of the freshman class told of some of the regulations of the school that had recently been made.

## PURPLE PEPS

A pep meeting was held Thursday at noon for the purpose of electing a new pep leader. It was necessary to do this because "Bib" Jameson, one of the pep leaders, plays basketball. Bettye Sternberg was elected pep leader by acclamation. She will lead yells with Lucille Davault, while "Bib" is on the floor. "Bib" and Lucille will lead yells when the girls are not playing a game.

After electing a new pep leader the pep squad practiced songs and yells.

## TYPE HIGH

The staff met last Tuesday, Dec. 2, at the extra activity period and discussed the rules and regulations by which they were to abide by. All of them which were read by the president, Katie B. Lowe, were voted on and adopted.

Besides the business meeting an interesting program was given by the members of the Press Club.

## Student Council Begins Work By Making New Rule

Our new Student Council has accomplished a great undertaking. A few weeks ago the students were forbidden to speak in the hall from 8:30 to 9:00 o'clock. Everyone resented this rule, but all were fairly co-operative in the enforcement. The walk from the front door to the locker rooms was a very solemn procession, and you could not speak to your very best friend. At the last meeting the members of the council asked for a change. Now each home room elects a monitor to serve for a week. These monitors have the right to take names and turn them in to the office, but first they must control all loud talking, running, and prevent groups gathering to tell the news. No one is allowed to loiter in the hall. You must keep moving at a brisk pace. Every student in Canyon High is glad that this movement has been taken and are willing to do their part to help the Student Council to success.

## JUNIOR BOX SUPPER

The Juniors held a box supper in the high school auditorium Friday evening. There were not very many boxes brought so there was not very much money made. They made about twenty dollars.

Douglas Henson and Ernest Wiggin were elected to be auctioneers. Later Wilford Taylor helped them.

There were several visitors and a large part of the junior class was there.

## THE PUNISHMENT They Get in the First Few Minutes Decides How Long They Will Last

And so it is with your motor . . . 40% to 60% of all motor wear occurs in the first few minutes after starting, because ordinary oils drain away in idle periods. But CONOCO Germ-Processed oil is always on guard duty, never drains away, penetrates metal surfaces, reduces starting wear.

A step on the starter always takes ordinary oils unawares, and it is then that most damage occurs in your motor. By draining away during idle periods, ordinary oils "let down their guard" and let your motor in for severe punishment at a time when protection is vitally needed.

On the other hand, Germ-Processed oil always

has its guard up. Its film penetrates and clings to every working part while the motor is idle.

The first motor revolution finds ready lubrication guarding every clearance. The 40% to 60% of wear which might have taken place before you ever shift a gear is substantially reduced.

Thousands of motorists have found that this improved motor oil prolongs motor life and gives better all-round performance. You can find CONOCO Germ-Processed Motor Oil wherever you see the CONOCO Red Triangle.

## SENIOR RINGS ARRIVE

The senior class rings have at last arrived. The class had almost decided they were not going to receive them until after Christmas, but much to their surprise, they learned upon arriving at school that the rings were here. It took only a short while for them to disappear. As usual, a lot of the rings are too large. The class feels like real seniors now—and they act like it, too. All that has been heard since they received their rings is a discussion on them.

## ATHLETIC CLUB

"Football," was the subject chosen by Coach Edgar Brady in addressing the boys' athletic club last Tuesday. He spoke of the present National Championship situation and the teams who were in line for it. He then started speaking on basketball. The boys enjoyed the program very much and will be glad to hear Coach again soon.

## SOPHOMORE BAKE SALE

The sophomores were rather slow about electing their king and queen for the school carnival, but this business was settled at the class meeting Wednesday, and Maxine Middleton and D. B. Pierson were chosen. The class, however, is submitting their entire support to the senior representatives and they want to help them in any way possible.

One of the sophomore representatives to the Student Council explained to the class about the new system of "traffic" regulations. Some discussion was made on a party to be had soon in the high school gym. A committee was also chosen to work out a stunt for the carnival.

An additional meeting was called Thursday to arrange for a bake and candy sale Saturday.

## FRESHMEN MEET

On Thursday, Dec. 4, the freshman class met and the president, T. V. Slack, appointed a committee to decide what kind of booths the class would have at the Carnival. Those appointed on the committee are Helen Hardman, Arnour Lee Greenfield, John Stratton and Alton Brasuel.

The committee appointed to learn the regulations of the Carnival was Rosa Cash, Margaret Seay, Gertrude Meador, and Myrtis Wright.

The president of the Student Council and the representatives of the freshman class told of some of the regulations of the school that had recently been made.

## PURPLE PEPS

A pep meeting was held Thursday at noon for the purpose of electing a new pep leader. It was necessary to do this because "Bib" Jameson, one of the pep leaders, plays basketball. Bettye Sternberg was elected pep leader by acclamation. She will lead yells with Lucille Davault, while "Bib" is on the floor. "Bib" and Lucille will lead yells when the girls are not playing a game.

After electing a new pep leader the pep squad practiced songs and yells.

## TYPE HIGH

The staff met last Tuesday, Dec. 2, at the extra activity period and discussed the rules and regulations by which they were to abide by. All of them which were read by the president, Katye B. Lowe, were voted on and adopted.

Besides the business meeting an interesting program was given by the members of the Press Club.

## Student Council Begins Work By Making New Rule

Our new Student Council has accomplished a great undertaking. A few weeks ago the students were forbidden to speak in the hall from 8:30 to 9:00 o'clock. Everyone resented this rule, but all were fairly co-operative in the enforcement. The walk from the front door to the locker rooms was a very solemn procession, and you could not speak to your very best friend. At the last meeting the members of the council asked for a change. Now each home room elects a monitor to serve for a week. These monitors have the right to take names and turn them in to the office, but first they must control all loud talking, running, and prevent groups gathering to tell the news. No one is allowed to loiter in the hall. You must keep moving at a brisk pace. Every student in Canyon High is glad that this movement has been taken and are willing to do their part to help the Student Council to succeed.

## JUNIOR BOX SUPPER

The Juniors held a box supper in the high school auditorium Friday evening. There were not very many boxes brought so there was not very much money made. They made about twenty dollars.

Douglas Henson and Ernest Wiggins were elected to be auctioneers. Later Wilford Taylor helped them.

There were several visitors and a large part of the junior class was there.

## THE PUNISHMENT They Get in the First Few Minutes Decides How Long They Will Last

And so it is with your motor... 40% to 60% of all motor wear occurs in the first few minutes after starting, because ordinary oils drain away in idle periods. But CONOCO Germ-Processed oil is always on guard duty, never drains away, penetrates metal surfaces, reduces starting wear.

A step on the starter always takes ordinary oils unawares, and it is then that most damage occurs in your motor. By draining away during idle periods, ordinary oils "let down their guard" and let your motor in for severe punishment at a time when protection is vitally needed.

On the other hand, Germ-Processed oil always

has its guard up. Its film penetrates and clings to every working part while the motor is idle.

The first motor revolution finds ready lubrication guarding every clearance. The 40% to 60% of wear which might have taken place before you ever shift a gear is substantially reduced.

Thousands of motorists have found that this improved motor oil prolongs motor life and gives better all-round performance. You can find CONOCO Germ-Processed Motor Oil wherever you see the CONOCO Red Triangle.

## FULLER LOST TO BUFFALOES BY ILLNESS

HATCHER BROWN IS MADE  
CAPTAIN OF QUINTET  
FOR 1931.

Buffalo basketball prospects, at the West Texas State Teachers College, took quite a slump, when it was announced that Captain-elect Preach Fuller, who is now ill with scarlet fever, had been ordered not to report at all this season for the squad.

This leaves only four letter men, besides the new prospects, for Coach Burton to fashion his 1931 basketball edition, and neither of these four played regular last season. The letter men are: Edwin Comer of Clovis; Otis Burk of Ralls; Hatcher Brown, of Canyon; and Bob Clark of Turkey.

These four men met last Thursday and elected Hatcher Brown as captain, to succeed Fuller. Clark, Burk, Comer and Fuller, by proxy, all voted for Brown and refused to let Brown vote, since they wanted the election to be unanimous.

Mr. Sheffy reports that there is an excellent school spirit at Dumas, among both the students, patrons, and faculty. While there, he was told that the Dumas people are planning to erect a new school building before next year.

## Geography Movies Shown for Benefit of Dawn Students

Motion pictures of the Panama Canal, Mexico, the Philippine Islands, and other scenes, were shown to the students and patrons

of the Dawn school, sixteen miles west of Canyon, last night, thru the courtesy of Miss Engle of the geography department of W. T., who directed the work.

The college has been the means of several of the schools of Randall and surrounding counties being able to give their pupils instruction of the above nature. Interesting and valuable projects in many branches have been sponsored by the various departments of W. T. Those given by the geography department consisting principally of pictures of the places being studied, with explanatory speeches by the faculty of the department, have been especially helpful and appreciated.

In the present instance both Miss Engle and Mr. Morris, principal at Dawn, deserve much credit for the presentation of the lesson project.

CITATION BY PUBLICATION  
THE STATE OF TEXAS

To the Sheriff or any Constable of Randall County—Greeting:

You are hereby commanded to summon S. G. Reddy, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 47th Judicial District, to appear at the next regular term of the District Court of Randall County, to be held at the Court House thereof in Canyon, Texas, on the 1st Monday in January, A. D. 1931, the same being the 5th day of January, A. D. 1931, then and there to answer a petition filed in said Court on the 5th day of May, A. D. 1930, in a suit, numbered on the docket of said Court No. 1238, wherein Realty Trust Company is Plaintiff, and J. W. Reddy and wife, Mrs. J. W. Reddy and S. G. Reddy are defendants, said petition alleging:

That the City of Canyon is a Municipal Corporation, duly incorporated, organized and existing under and by virtue of the General Municipal Incorporation Laws of the State of Texas, and operated under said General Municipal Incorporation Laws at all times mentioned in this petition, and all the powers granted to cities and municipal corporations under and by virtue of said General Incorporation Laws, and having its domicile in Randall County, State of Texas.

That all of the proceedings under and by which said certificate of special assessment, sued on here, in, was levied, were had under and in accordance with Chapter 106, Acts of 1927, of the First Called Session of the Fortieth Legislature, shown as Article 1105b of the Revised Civil Statutes of the State of Texas of 1925.

That heretofore, to-wit: on the 30th day of May, 1928 the City of Canyon, acting by its Mayor and City Secretary attested with its corporate seal and executed a certain certificate of special assessment of said city, which is in and to the Panhandle Construction Company and its assigns, for the pro rata part of the cost of improving a portion of Third Avenue in said city, payable by the owner of the premises hereinafter described and described in said certificate, to-wit: the defendant J. W. Reddy.

That said certificate sets forth and certifies substantially that by virtue of an ordinance of the City Commission of the City of Canyon, Texas, passed on the 7th day of April, 1928, there was levied an assessment in the sum of \$369.00 against certain property in the original Town of the City of Canyon, Texas, fronting 90 feet on the North side of Third Avenue, more specifically described hereinafter, and against the true owner of said premises.

That said certificate further recites substantially that said assessment is payable in six equal installments due respectively on or before ten days, one, two, three, four and five years after the 30th day of May, 1928, together with interest at the rate of 8 per cent per annum from said date, provided that the said owner has the option to prepay any installment before maturity with accrued interest; said certificate further recites that said assessment was levied by virtue of the ordinance and previous ordinances and proceedings of the City Commission of the City of Canyon, Texas, providing for the payment by the owner of said premises of his pro rata of the cost of improving a portion of said avenue by virtue of the contract between the City of Canyon and Panhandle Construction Company, dated the 30th day of January, 1928, and that by said proceedings said special assessment was declared and made a lien against said premises and a personal charge against the owners thereof payable to the said Panhandle Construction Company, or its assigns, in said installments, and if default shall be made in the payment of any installment of principal or interest when due, then, at the option of said certificate, and assessment, the same shall mature and become payable for the full amount of principal and interest thereon, and shall be collectible with accrued interest and reasonable attorney's fees and costs of collection, if incurred.

That said certificate recites substantially that all proceedings with reference to making such improvements have been regularly had in compliance with the law and the charter of said city and the terms of the certificate, and that all prerequisites to the fixing of said assessment lien on said premises and claim of personal liability evidenced by said certificate have been performed, and Plaintiff alleges and charges that each and every step provided or required by law, or the charter of said city, or by proceedings as a prerequisite to the making of said improvements and the fixing of said assessment lien and personal liability, and the issuance of said certificate, have been done and performed in accordance with said law, charter and proceedings, and that the assessment evidenced by said certificate and upon the terms therein

## THE GREAT AMERICAN HOME

set forth, is regular, valid and enforceable, and is a personal liability against the owners of said premises, and a valid enforceable, first and prior lien upon said premises.

That afterwards the said Panhandle Construction Company duly transferred, assigned and sold to the Realty Trust Company for a valuable consideration, said indebtedness together with the certificate evidencing the same and all rights, titles, liens and remedies securing the payment thereof, and the Realty Trust Company is the present legal and equitable owner and holder of said certificate and assessment, and entitled to enforce and collect the same in its own name.

Plaintiff alleges that default has been made by the defendants, J. W. Reddy and wife, Mrs. J. W. Reddy, in the payment of said installments due upon the said certificate for such default the Realty Trust Company has declared the entire amount due, and though often requested the defendants, J. W. Reddy and wife, Mrs. J. W. Reddy, to pay the same, they have refused to do so, and are indebted to plaintiff's damage in the sum of \$500.00.

That it is necessary to sue upon said certificate and assessment, and attorney's fees have been and will be incurred, and said certificate has been placed in the hands of the undersigned attorneys for suit, and a reasonable attorney's fee is the sum of \$200 which plaintiff has bound itself to pay, and for which the defendants and each of them are additionally liable.

That the premises described in said certificate and assessment are as follows, to-wit:

All that tract, piece or parcel of land, lying and being situated in the City of Canyon, County of Randall, State of Texas, being Lots Nos. 11, 12 and 13 in Block No. 24 of the Old Town Addition to the City of Canyon, fronting 90 feet on the North side of Third Avenue, and the same are the identical premises described in said assessment and certificate.

WHEREFORE, PREMISES CONSIDERED, Plaintiff prays that the defendants, and each of them be cited and served to answer herein as required by law, and that upon final hearing it have judgment against the defendant, J. W. Reddy, including the amount of its debt, principal, interest, attorney's fee, and costs of suit, and for the foreclosure of its assessment lien against all defendants, and that an order of sale issue, and that said property be sold as under execution and the proceeds applied to the satisfaction of Plaintiff's debt, and for execution, and for such other and further relief, both general and special, legal and equitable, as it may be entitled to.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Canyon, Texas, this 3rd day of December, A. D. 1930.

You are hereby commanded to summon Eula Lee Wilkerson by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial District; to appear at the next regular term of the District Court of Randall County, Texas, to be held at the Court House thereof, in Canyon, Texas on the 1st Monday in January, A. D. 1931, the same being the 5th day of January, A. D. 1931, then and there to answer a petition filed in said Court on the 3rd day of December, A. D. 1930, in a suit, numbered on the docket of said Court, No. 1278, wherein Clarence Wilkerson is Plaintiff, and Eula Lee Wilkerson is Defendant; the nature of plaintiff's demand being as follows:

Plaintiff alleges that he is an actual bona fide inhabitant of Randall County, Texas, having resided there for a period of more than twelve months, next preceding the filing of this petition, that on September 10th, 1926, plaintiff was lawfully married to

lien upon the said property abutting the street of improvement superior to all liens and claims, except taxes, and a personal charge against the owner thereof.

3. That in accordance with said determination of the governing body and the contract, the city caused notice to be given to the owners of said property and all persons having or claiming an interest in said property, that on March 3, 1928, it would hear evidence whether or not the contemplated improvement abutting said Lot 12, would enhance the value thereof to the extent of \$139.20, which notice was given for the length of time and in the manner specified by the general paving law.

4. That such hearing was duly held at the advertised time, when as such it was determined that the improvement would enhance the value of the property equal to the cost of improvement, which said determination was final and has not been appealed from; that thereafter the plaintiff completed said improvement according to the plans and specifications, which were accepted by the governing body on the 19th day of September, 1928, and a certificate evidencing the amount of indebtedness, to-wit: \$139.20, was issued by said city and delivered to the plaintiff, and the plaintiff is the owner and holder thereof, such certificate reciting all the matters which the contract above named agreed should be entered, and by the terms thereof and by reason of such said sum of \$139.20 became owing to this plaintiff and a first lien upon said property, a personal charge against the owner or owners thereof, payable under the conditions named.

5. That the installment due on the 29th day of September, 1928, and the one due on the 19th day of September, 1928, and the one due on the 19th day of September, 1929, as well as the one due on the 19th day of September, 1930, have matured, and are wholly unpaid, nor has any interest been paid on the principal debt, and that by reason of such delinquency the plaintiff has elected to mature the three remaining installments of said certificate and has placed them with an attorney for collection, and that the reasonable fee therefor is the sum of \$100.00, for which it asks judgment for principal and interest, and that same be decreed to be a lien upon said lot as is provided by the enabling acts and the certificates.

WHEREFORE, the plaintiff prays for process upon the defendants, to an hearing if it have its judgment for its debt, interest and attorney's fees, as well as costs, that such judgment be decreed to be a lien upon the said lot as of January 30th, 1928, and at all times thereafter, that the lien be foreclosed and the property sold and the proceeds thereof applied to the satisfaction of plaintiff's judgment, and for such other relief as at law or in equity it may be entitled to.

Herein fail not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Canyon, Texas, this 29th day of September, A. D. 1930.

one time been licensed by the New York Police department to carry a fire arm, and that he had been connected with the Federal Government in some manner. It was later learned that he had been connected with the Federal Gov-

ernment as a narcotic officer, several years ago. A small notebook found in his pockets is said to have contained addresses of narcotic agents over the United States. It is also said that the shoes which McCarver were wearing had hol-lowed places in the heels which were padded with rubber, which method it is said is commonly used

to carry narcotics.

All other passengers of the bus were detained in Canyon where County Attorney Flanigan Smith secured depositions from several of them. A relief bus was sent from Amarillo and the schedule was resumed after some three hours delay. The windshield of the first bus was riddled with bullet holes, coming from both the vic-tims gun and those of the officers.

Examination of McCarver's body revealed that one bullet entered his left shoulder and ranged up-ward through his neck to the right. Two other slugs entered the abdo-men on the left side below the ribs; one in the lower abdomen on the left side; one in the right wrist, and one grazed the left shoulder. A cut or bruised place on the left cheek indicates one bullet grazed his face.

The body was carried to Griggs-Thompson Funeral Home where it was prepared for burial. In a tele-phone conversation with C. P. McCarver, a brother who lived in New York, the local funeral home was directed to ship the body to Nashville, Tennessee where the parents of McCarver live. His father is a former mayor of Nash-ville. He is said to have a sister in Memphis, Tenn.

At a court of inquiry by Dis-trict Attorney Edw. W. Thomerson in Justice Witherspoon's court, Hicks and Barnett were released under \$500 bond.

Hermuth Heusmann, said to be a recent immigrant from Germany, but who speaks English fluently, was a fellow passenger of McCar-ver from St. Louis to Amarillo and claims to have been with McCar-ver when he purchased a bottle of liquor in Amarillo. Heusmann is being held by the Sheriff's de-partment as a material witness for the state and will be questioned by the grand jury which convenes in January.

McCarver's gun is said to have had a capacity of eight shells and tim's gun and those of the officers, loaded when he began firing. Hicks received a slight wound on the right arm. Other officers and thirteen other passengers escaped unharmed.

## Man Killed

(Continued from first page)  
one time been licensed by the New York Police department to carry a fire arm, and that he had been connected with the Federal Government in some manner. It was later learned that he had been connected with the Federal Gov-

ernment as a narcotic officer, several years ago. A small notebook found in his pockets is said to have contained addresses of narcotic agents over the United States. It is also said that the shoes which McCarver were wearing had hollowed places in the heels which were padded with rubber, which method it is said is commonly used

to carry narcotics.

All other passengers of the bus were detained in Canyon where County Attorney Flanigan Smith secured depositions from several of them. A relief bus was sent from Amarillo and the schedule was resumed after some three hours delay. The windshield of the first bus was riddled with bullet holes, coming from both the victims gun and those of the officers.

Examination of McCarver's body revealed that one bullet entered his left shoulder and ranged upward through his neck to the right. Two other slugs entered the abdomen on the left side below the ribs; one in the lower abdomen on the left side; one in the right wrist, and one grazed the left shoulder. A cut or bruised place on the left cheek indicates one bullet grazed his face.

The body was carried to Griggs-Thompson Funeral Home where it was prepared for burial. In a telephone conversation with C. P. McCarver, a brother who lived in New York, the local funeral home was directed to ship the body to Nashville, Tennessee where the parents of McCarver live. His father is a former mayor of Nashville. He is said to have a sister in Memphis, Tenn.

At a court of inquiry by District Attorney Edw. W. Thomerson in Justice Witherspoon's court, Hicks and Barnett were released under \$500 bond.

Hermuth Heusmann, said to be a recent immigrant from Germany, but who speaks English fluently, was a fellow passenger of McCarver from St. Louis to Amarillo and claims to have been with McCarver when he purchased a bottle of liquor in Amarillo. Heusmann is being held by the Sheriff's department as a material witness for the state and will be questioned by the grand jury which convenes in January.

McCarver's gun is said to have had a capacity of eight shells and tin's gun and those of the officers, loaded when he began firing. Hicks received a slight wound on the right arm. Other officers and thirteen other passengers escaped unharmed.
